India Drilling & Exploration Conference - Summary IDEC 2023

It was a successful gathering of industry professionals at the 16th India Drilling & Exploration Conference & Expo. The focus on discussing and driving innovation in the upstream oil and gas industry, especially under the theme of "Future Challenges for sustainable Oil and Gas Exploration and Development," highlights the industry's commitment to addressing current and future challenges.

The participation of key operators such as ONGC, OIL, BPRL, RIL E & P, OilmaxEnergy Limited, BP, SEROS, as well as suppliers, energy service companies, and technology innovators, reflects a collaborative effort to leverage technology for a low-carbon future. The recognition of technology as a strategic imperative aligns with the global shift towards sustainability and environmental responsibility.

Pankaj Kumar, Director Production, ONGC, keynote speech on "Future new technologies for sustainable Oil and Gas Exploration and Development" likely provided valuable insights and set the tone for the conference. The emphasis on open and honest discussions during the panels suggests a transparent and collaborative approach to addressing industry challenges.

The acknowledgment that the energy sector already possesses key solutions and technologies for a sustainable future underscores the importance of implementation and rapid scaling-up. The call for forging new alliances and developing novel ways of working together across value chains and ecosystems reflects an awareness of the interconnectedness of the industry and the need for comprehensive solutions.

Panel discussion dwelled upon the increase in India's projected oil demand and the significance of the oil and gas sector for economic growth, & how crucial it is to address key aspects such as enhancing Environmental, Social, and Governance (ESG) performance, integrating emerging technologies, and implementing effective carbon emission management strategies. By addressing these points, the oil and gas industry in India can work towards aligning its growth with environmental sustainability, social responsibility, and good governance, making it an attractive and responsible sector for investment.

The focus on advances in well completion technology and the consideration of re-fracturing existing wells reflect the industry's efforts to optimize production and reduce costs. The operators can make informed decisions about whether re-fracturing existing wells is a viable and economical option in their specific operational context. This approach can contribute to the sustainable and efficient development of offshore oil resources.

The marginal field operators are battling with the issues of funding, social political, environmental and technical issues. A marginal oil and gas field is capable of yielding an economic return only by using some innovative ideas. Implementing a comprehensive life cycle management strategy the long-term economic viability and sustainability of marginal fields can be achieved.

Drilling optimization is a critical aspect of oil and gas exploration and development, and predicting the Rate of Penetration (ROP) is a key element in this process. Optimizing drilling operations can lead to increased productivity, cost savings, and improved profitability for oil and gas projects.

The exploration and implementation of Enhanced Oil Recovery (EOR) methods are crucial for addressing the gap between energy demand and supply in India, especially given the maturity of many oil fields.

Reservoir modeling, reserves assessment, and the execution of a development plan can contribute to enhancing oil and gas production to meet the nation's energy demand more effectively.

It will be interesting to see how these discussions and collaborations translate into practical actions and

innovations that contribute to a more sustainable and efficient oil and gas sector.

Overall, the conference seems to have been a platform for sharing knowledge, fostering collaboration, and driving positive change in the industry.

IDEC 2023 - SESSIONS COVERED

- Future new technologies for sustainable Oil and Gas Exploration and Development
- Drilling & Completions - Innovation & new technology
- Marginal Oil Field Development - unlocking resources
- Drilling performance monitoring and optimization - improving drilling efficiency
- Reservoir Management - maximizing production from the wells
- Well planning & interventions - from restoring to increasing production
- Production enhancement from the oilfields
- Digital as the driving Force of the Future of Oil & Gas - Innovation in advanced analytics, AI & Deep learning
- New Technology

KEY SPEAKERS

- Pankaj Kumar, Director Production, ONGC
- P K Goswami, Director Operations, OIL
- Barnali Tokhi, MD, BPRL
- Dr. Rabi Bastia, CEO, Oilmax Energy Limited
- Molyama Kromah, Production and Operations India, BP
- Ashish Agarwal, MD & CEO, SEROS
- Avrille Ocampo, Technical Sales & Operational Support, McCoy Global
- Mervyn Lau Kwong Hoong, Technical Manager Asia, Slb
- Harii Sudharsan, Sales Engineer-Surface Production Systems, Cameron, a Schlumberger Company
- Manoj Patni, Sales Director, Baker Hughes
- Pankaj Jain, RIL E & P
- Subhakant Das, WSS Ahmedabad, ONGC
- Ashay Sharma, Assistant Project Director, Baker Hughes
- Lokesh Agarwal, Head-Reservoir Engineering & Sumani Das, Oilmax Energy Pvt. Ltd
- Shital Khot, CMD SNF Flopam India
- Thomas Divers R&D Incharge Eastern hemisphere, SNF
- Prince Kumar, Geomechanics Expert SLB
- Yatagiri Raviteja and Naresh Vary, RIL E&P
- Ankit Garg, Digital Well Planning Coordinator, Slb
- Pawandeep Singh Bagga, Drilling Services Technical Support Manager, Baker Hughes
- Shivan Sharma, Slb
- Vishwajit Upadhye, Business Development Manager, Middle East and North Africa, Geosplit Middle East FZE
- Ritwika Das, SLB
- Seshubabu Seshagiri, RIL E & P
- Ajit Kumar, Well Integrity Domain Champion, Slb
- Gautam Kumar Tibrewal, ONGC, WSS
- Chetanshu Kumar Naik, Slb
- Arpit Saxena, RIL E&P
- S Boopathy, Senior General Manager-Advanced Material Division, 3M India Limited
- Rohan Kumar, CBM ASSET, BOKARO, ONGC
- Abhishek Gupta, Senior Petroleum Engineer, Greenfield Oil & Trading Services Private Liited (GOTS)
- Fishbones, Aditya, SKO
- Dr. Jatin Agarwal, Program Director, Tridiagonal Solutions Pvt. Ltd.
- Manav Kanwar, SKO Energy Solutions / Tachyus
- Aditi Jain, Sr. Consultant, Halliburton
- Harpal Parmar, AUI Systems
- Nitish Choudhary, BDM & Product Champion, Greenfield Oil & Trading Services Private Limited (GOTS)
- Stephane Prigent, Designation Head of Wetland Department, Company Bauer Nimr LLC
- Taha Metwally, Regional Business Development Manager, Wanner International Ltd.
- Sivabalan A, Business Line Manager - South Asia, Edwards India Ltd.

PARTICIPATING COMAPNIES

- 3M India Limited
- Adani Welspun Exploration Ltd
- Advanced Watertek
- AllRig
- ASAP
- AUI Systems
- AYM
- Baker Hughes
- Bauer Resources GmbH
- BP
- BPRL
- Capital Ship Solutions
- Cenerg
- Company Bauer Nimr LLC
- Completion Energy Company
- CPT
- CPT. LTD
- DelVal Flow Controls Private Ltd.
- Derrick Corporation - India
- Derrick Equipment
- Derrick Solutions International
- DGH
- Dril-Quip Asia Pacific Pte Ltd
- Edwards India
- ESP Safety PVT. LTD
- FEL
- Flexiflo
- Foresight
- Forum
- Fugro
- GAC Shipping
- GAIL
- Geosplit
- Geotechno Consultants
- GMCG
- Goma Engineering
- Greatship
- Greatship (India) Limited
- Green Oilfield
- Kiri Group
- Lee Spring Company India Pvt. Ltd.
- Maersk Training
- Manan Oilfield Services Private Limited
- MASCOT SYSTEMS
- Mascot Systems Pvt Ltd
- Maxima Steel Services
- McCoy Global
- MHWIRTH
- Mikael pharma
- MT&T Rentals
- OCS OIL-TECH CONSULTANCY
- OFI
- Oil and Natural Gas Corporation Ltd
- Oil India Liimited
- Oilmax Energy Limited
- Om Technical Solutions
- ONGC
- PRINCE ENERGY
- PROTEGO India Pvt. Ltd.
- PWD Mumbai, state government
- ravir engineering
- RIL E & P
- Scandron
- Seros Energy

PARTICIPATING COMAPNIES

- Greenfield Oil & Trading Services Private Limited (GOTS)
- Gumpro Drilling Fluids
- Halliburton
- International SOS
- Jay Technologies
- Jiach Energy
- JIACH ENERGY SOLUTIONS
- Karsingh International
- Khym India
- Servicos De Petroleo Constellation S A
- Shelf Drilling
- Shri Chandra Bulk Cargo Services Pvt Ltd.
- Siemens Energy
- SKO Energy Solutions
- SLB
- SNF FLOPAM
- SPBUMIARMADA
- Sun Petrochemicals
- SWOP Engineering Pvt. Ltd
- Thyssenkrupp Industrial Solutions
- Tridiagonal Solutions Pvt. Ltd.
- United Drilling Tools
- UPES
- Vivanta Fluidtech Systems
- Wanner Hydracell
- Wanner International Ltd
- Wellhead
- Wichita

LIST OF EXHIBITORS

- Cenerg
- ESP Safety
- Global Maritime Consultants Group
- Goma Engineering
- Mascot Systems
- Scandron Pvt Ltd
- Seros
- SKO Energy Solutions
- SNF
- Swop Engineering Pvt. Ltd.

LIST OF EXHIBITORS

FELICITATION OF OIL & GAS PROFESSIONALS

TESTIMONIAL

IDEC is a good venue to bring Oil & Gas Industries Operators & service partners together to share their experiences add value to new projects.

-Abdo Ahmad, Drilling & Completions, Reliance Industries LTD

It is very useful for our business, I came to know some new technologies to enhance production, de-waxing, pollution control, etc.

-Premshankar Tiwari, Wellhead Equipment Engineers

Nicely organised conference.

-Subhakant Das, WSS, ONGC

This is very useful seminar bringing industry experts of various domains together.

-PMK Kumar, Drilling Services, ONGC Ltd

Very well organized.

-Gaurav Madaan, Business Development, Essar Group

Advancement in Stimulation Techniques Conference was a great platform to share thoughts, new ideas and technologies in the field of oil and gas.

-Rohan Kumar, Well Services, ONGC

Great experience of meeting various peers and great ideas shared . Thank you all innovative concepts team for making this happen successful.

-Naresh Varry, Drilling & Completions, Reliance Industries Limited

Well organized and hosted event with fairly curated topics.

-Reliance Industries Limited, Pankaj Jain Well Engineering

Nicely organised and managed. I do have 2 suggestions, 1. To get a better hold of presentation timings, you may ask your presenters to pre-record the presentation in Powerpoint for the specified time frame and during the conference you may play the recording with the presenter at the podium only for the Q/A on the slides. 2. The eminent personalities left the conference as soon as their time slot was over, you may organise and distribute expert panel sessions so that the audience feels the presence of industry leaders.

Greenfield Oil & Trading Services Abhishek Gupta Petroleum Engineering

TESTIMONIAL

Enjoyed and learned so many things related to Drilling and production enhancement.

-Sawan Kumar Sethy, Drilling, Oil India Limited

It was rich and humble experience to meet ,talk & listen to the who is who in our Industry. Starting from the Inugural session of day 1, hearing our Director Production was a great experience. Thanks for the excellent arrangements in place, lively session Q&A, however felt 15 mins was too small.

-Sanjay Dutta, Production, Offshore Platform, ONGC

The conference is short and sweet and covered all relevant topic, the exhibition was small But very meaning full and need of the day. Thank you for invitation.

-S K Singh Saktavat, ONGC

Very well organized. Thanks for inviting and keep up the good work.

-Imtiyaz Khan, DRIL-QUIP
